INTRODUCTION

The purpose of this report is to provide a comprehensive overview of the current state of research in the field of artificial intelligence. This document is intended for researchers and practitioners in the field of AI, and it is hoped that it will provide a useful reference for those interested in the subject. The report is organized into four main sections: **1. Introduction**, **2. Preliminary**, **3. Discussion**, and **4. Conclusion**.

The first section, **1. Introduction**, provides a general overview of the field of artificial intelligence. It discusses the history of AI, the current state of research, and the challenges that remain. The second section, **2. Preliminary**, discusses the basic concepts and terminology used in the field of AI. The third section, **3. Discussion**, discusses the current state of research in the field of AI, and the challenges that remain. The fourth section, **4. Conclusion**, provides a summary of the findings of the report and offers some suggestions for future research.

Preliminary **E**ssential **T**erms **A**nd **B**rief

The purpose of this section is to provide a brief overview of the basic concepts and terminology used in the field of artificial intelligence. This section is intended for those who are new to the field and need a basic understanding of the terminology.

1. D

1.1. Definition of AI

2. Preliminary

2.1. Basic Concepts and Terminology

2.2. History of AI

The purpose of this section is to provide a brief overview of the basic concepts and terminology used in the field of artificial intelligence. This section is intended for those who are new to the field and need a basic understanding of the terminology. The first part of this section, **2.1. Basic Concepts and Terminology**, discusses the basic concepts and terminology used in the field of AI. The second part of this section, **2.2. History of AI**, discusses the history of AI and the current state of research.

3. Discussion **A**nd **B**rief

The purpose of this section is to discuss the current state of research in the field of artificial intelligence and the challenges that remain. This section is intended for those who are interested in the current state of research in the field of AI.

4. Terms **E**ssential **A**nd **B**rief

The purpose of this section is to provide a brief overview of the basic concepts and terminology used in the field of artificial intelligence. This section is intended for those who are new to the field and need a basic understanding of the terminology.
